Thanks Martin. Looks like I have some time next week Tuesday or Friday let me know what time works for you. I'll have to check on the professor from CSU, not sure if we contracted with someone or not but I'll let you know.

Todd - First of all congratulations on your selection to replace John. We will miss him but look forward to working with you. I was wondering if there might be some time on your calendar in the next couple of weeks to discuss some items related to Pavillion. Could you let me know? Also did WY contract with a professor from Colorado School of Mines to participate in the Well Bore Work group? What was his name do you know? I have a family friend/acquaintance who used to be Dean of Engineering at CSU that was looking for someone to speak to the local ASME group about fracking and I thought your contact at Mines might be the right guy. Let me know. Thanks again and welcome aboard.
